

Emma Laakso

Senior Data Scientist

emma.laakso@example.com | +358 44 555 6677 | Tampere, Finland

Experience

Senior Data Scientist, Pilvi Solutions (2019-2026) - 7 years

- Deep-learning demand models in Python with PyTorch, trained and served on GCP
 - Owned the feature pipeline in dbt and Airflow, and the Tableau reporting on top of it
- Data Scientist, DataForge (2017-2019)
- Built route-optimisation models in Python for the logistics team

Education

M.Sc. Computer Science, Tampere University (2017)

Skills

Python, PyTorch, SQL, dbt, Airflow, GCP, Tableau

Projects

- Migrated the legacy scoring model to a deep-learning pipeline on GCP
- Real-time anomaly detection model handling 2M events per day
- Mentored 4 junior data scientists on model evaluation
